

Calmness is inherent in our notions of nature—
you stroll through a lush, green park to clear your head;
you let the seaside's crashing waves drown out the noise of the city;
you escape for a weekend to the mountains,
a hazy dreamscape of fog-draped silence.

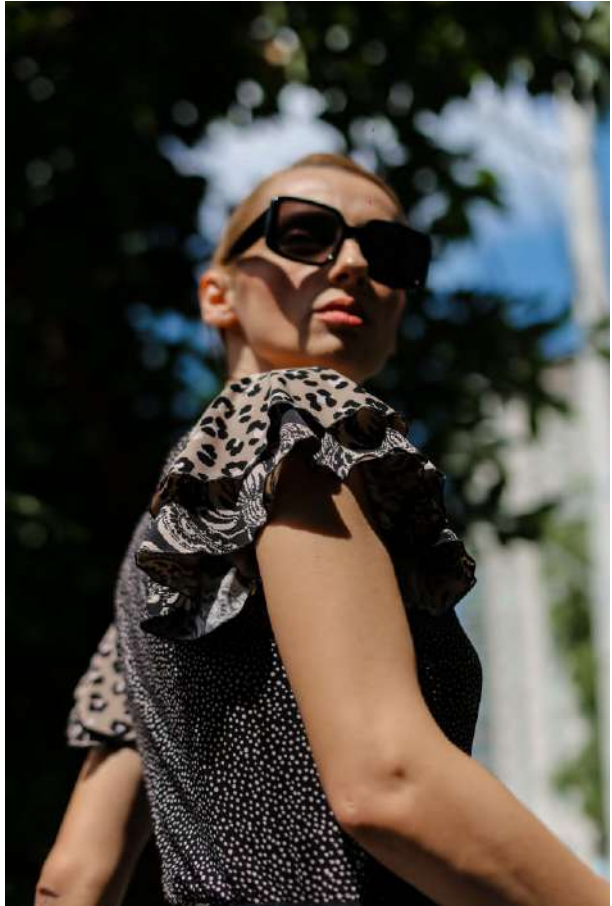

What we often don't realise is that nature is, at its heart, wild.
No one dares tame the preying birds, the Amazon's thicket of poisonous
vines, or the prowling African wildcats. They simply are.

The harmony in the serenity and untamed beauty of nature is
the inspiration behind YOYA's new signature printed co-ords collection—
Feline Pride. Floral Army. Summer Crush.

This summer, we pile on the prints. With the juxtaposition
of colors and patterns sparking immediate desire,
the secret lies in the visual chaos.

FELINE PRIDE

Walk on the wild side with Feline Pride. Its predatory prints channeling far-flung getaways to hidden pockets of paradise.

For the daily prowls, few prints deliver instant impact. No longer just for the maximalist, this full-throttle ferocity is most definitely even for the shy.

FLORAL ARMY

A graphic, geometric reinterpretation of the military camouflage traditionally associated with blending into the background, Floral Army is not for the wilting wallflower.

With its subtle blend of searing neon and tonal neutrals, it's a tasteful, vibrant spin on timeless safari hues.
