Spring
AWAKENING

CAPSULE ONE

Spring Awakening began with a feeling — a sense of budding energy, growth, and something coming to life again.

At its heart, this collection is about love, longing, connection, and the hopefulness that comes with new beginnings. It explores the feeling of opening yourself up again — to another person, to possibility, or even to a new version of yourself.

There is a spirit of play throughout the collection, balanced with functionality and intention — pieces designed to feel expressive, wearable, and alive.

I hope you enjoy Spring Awakening as much as we enjoyed bringing it to life.

With love,

Yoya
